email: [studio@printmakers.mb.ca](mailto:studio@printmakers.mb.ca)

Office Hours: Tuesday to Friday 10am to 5pm, Saturday 12-5pm (closed Saturdays of long weekends)

### **STUDIO CHEMICALS**

We make every effort to use green products in the studio wherever possible, and use a minimum of varsol by cleaning up most surfaces with canola oil and vinegar. However, there are still some chemicals that we cannot currently do without. Below is a comprehensive list of all chemicals and other substances divided by technique. Please consult a physician about your own sensitivity to those listed below and always follow the instructors' directions on their safe use.

#### **SCREEN PRINT**

DC-521 Dual Cure photo-emulsion  
311 Quick Strip reclaimer  
TR Blend ink cleaner  
Phantom 1000 ghost and haze remover  
Swish Powerhouse spray and wipe cleaner (for cleaning drawing fluid)  
Simple Green Pro HD (dilute all-purpose cleaner)  
Speedball acrylic and fabric screen printing inks  
Speedball screen filler  
Speedball screen drawing fluid  
HR-88 spray adhesive

#### **LITHOGRAPHY**

Carborundum  
D and S Biolac
